

# RetailStudio Hybrid

**Fast.  
Intelligent.  
Always On.**

Our flagship solution, built on Microsoft's cutting-edge stack, is designed to meet the high-speed demands of modern Retail.

The EPSILON Retail team leverages decades of expertise to deliver innovative, end-to-end 360° software solutions. From standalone boutiques to complex franchise networks, we empower businesses to thrive in today's fast-evolving digital landscape

## Why It Stands Out

- **Integrated Ecosystem**  
Seamless connectivity with EPSILONNET ERP systems (PYLON, Galaxy) and accounting applications.
- **Omnichannel Ready**  
Native integration with e-shop platforms and Digital4U solutions, ensuring a unified sales experience across all channels.
- **AI-Powered Insights**  
Advanced analytics, predictive trends and workflow automation to support smarter, data-driven decisions.
- **Total Compliance**  
Fully aligned with local fiscal regulations.

## Tailored for Your Industry

- **Retail & Food**  
Mini Markets, Supermarkets & Grocery Stores.
- **Fashion & Apparel**  
Clothing, Footwear & Accessories.
- **Food Service**  
Full support for Delivery, Take-Away & Dine-in operations.

 **EPSILONNET**

 **EPSILON  
RETAIL**

**Retail Technology  
Forward**

## More Than Software - A True Partner

### The EPSILON RETAIL Advantage

- **Speed at the Point of Sale**  
Complete transactions in under 3 seconds with integrated card payments (POS).
- **Hybrid Reliability**  
A unique Online/Offline architecture that ensures uninterrupted operation—even without an internet connection.
- **Smart Inventory**  
Accurate stock control, automated inventory processes, and mobile terminal support.
- **Advanced Loyalty**  
Strengthen customer retention with personalized rewards, coupons, and membership cards.
- **Security & Surveillance**  
Monitor every transaction with integrated video tracking linked to POS events (e.g., drawer openings, cancellations).
- **Management on the Go**  
Track performance with live dashboards on mobile, tablet, or desktop (iOS, Android, and Windows).
